Denso BHT-XN Series

Denso BHT-XN Series – Lightweight, ergonomic and intelligent

Ultra-lightweight for fatigue-free working
Weighing just 180 g, the BHT-XN enables long periods of use without causing strain on employees.

Slim and handy – fits in any hand
The compact device fits in any pocket and fits securely in any hand size.

Precise scanning engine for fast capture of 1D and 2D codes
The advanced scanning engine reliably reads even poorly printed and particularly small barcodes.

Flexible scan button on the display
This scan button can be individually adjusted to suit the size of your hand and your working style – for maximum ease of use.

High-resolution cameras for more information and easier collaboration
Photos and videos facilitate the creation of documentation and communication within the team.
