

Advantech UTC-500 Series - Versatile Panel PCs for demanding environments

-  **Robust aluminium housing with IP65 front for harsh environments**
Protection against dust and splash water thanks to IP65-certified front and fanless design for reliable 24/7 operation.
-  **Flexible display sizes from 10.1 to 42.5 inches with Full HD resolution**
Widescreen displays in 16:9 format with scratch-resistant glass (up to 9H) for clear visualisation and easy operation.
-  **Powerful processors for a wide range of applications**
Choice of Intel® Atom™, Celeron®, Pentium® or Core™ i3/i5/i7 processors for different performance requirements.
-  **Flexible orientation: landscape and portrait format for different applications**
Supports landscape and portrait mode, ideal for interactive kiosks, digital signage or information terminals.
-  **Modular design for easy expansion and customisation**
Side groove for flexible mounting of peripheral devices such as scanners, card readers or cameras.
